

RetroPick

BRAND IDENTITY SYSTEM

Brand Guidelines

The visual language of the first oracle-resolved prediction market built for degens, non-crypto users, traders, researchers, and everybody. One mark, one voice, deterministic by design.

VERSION

1.0 · 2026

CLASSIFICATION

Public

The brand at a glance

RetroPick settles every market from verifiable data, with no human judges, no dispute windows, and no discretion. The identity carries that same clarity: a single fluid mark, a confident electric blue, and a quiet, technical voice that earns trust through precision rather than noise.

PRINCIPLE 01

Deterministic

Outcomes resolve from oracle data alone. The brand should always feel exact, engineered, and certain.

PRINCIPLE 02

Fluid

The wave glyph reads as motion and momentum, price action made into a single confident gesture.

PRINCIPLE 03

Dual-Native

Built for crypto degens and finance normies alike. The look is sharp enough for traders, clean enough for professionals.

BRAND PROMISE

“Predict anything. Settled by data, not opinion.”

The primary mark

The RetroPick logo pairs the wave glyph inside a circular token with the wordmark set in a bold geometric sans. The glyph references stacked market waves (direction, threshold, and range) flowing as one continuous form.

Lockups

Clear space & minimum size

Protect the mark with clear space equal to the height of the glyph (1×) on every side. Never crowd it with text, graphics, or edges.

Misuse

The mark's integrity depends on consistency. Never alter its color, proportions, orientation, or composition.

DON'T RECOLOR

DON'T STRETCH

DON'T ROTATE

DON'T ADD SHADOW

DON'T OUTLINE

DON'T CROWD TYPE

When in doubt, reach for the supplied lockups in the brand kit rather than rebuilding the mark. Glyph, spacing, and weight are fixed assets, not to be recreated by hand.

Palette

Electric Blue is the signature, used for the mark, primary actions, and key data. It sits on deep Midnight surfaces with cool neutral type. Use accents sparingly to mean something: positive, negative, and pending states.

Electric Blue
#5170FF
81 · 112 · 255

Primary brand, CTAs, links, the mark.

Midnight
#0B0E1A
11 · 14 · 26

Primary background and dark UI surface.

Panel
#141A2E
20 · 26 · 46

Cards, panels, raised surfaces.

Mist
#AEB6D6
174 · 182 · 214

Body copy on dark.

Up / Yes
#3DD68C
61 · 214 · 140

Positive outcome, gains, resolved-yes.

Down / No
#FF4D5E
255 · 77 · 94

Negative outcome, loss, resolved-no.

GRADIENT · HERO & GLOW

#5170FF → #7C90FF, 120° · use at < 25% opacity for ambient glow

Type system

Inter carries the brand. A precise, neutral grotesque that scales from dense data tables to bold display. Space Mono marks numbers, tickers, contract addresses, and any value that should read as machine-truth.

Inter

PRIMARY TYPEFACE

Semibold 600

Extrabold 800

Black 900

DISPLAY / H1

Predict anything

Inter Extrabold · -3% tracking · 96% leading

BODY

Settled by data, not opinion. RetroPick resolves outcomes deterministically from oracle feeds.

Inter Regular · 17px · 165% leading

DATA / MONO

\$67,420.18

BTC · +2.41% · 5m

0x71C...3aF9 · epoch #1042 · resolved

Space Mono for all prices, tickers, addresses, epoch IDs, and resolution data.

The glyph

Three flowing strokes form the “R” wave, a stack of market bands in motion. The glyph works standalone as an app icon, favicon, watermark, or loading state. Keep it whole; never split the strokes.

WHITE ON BLUE · PRIMARY

BLUE ON WHITE · LIGHT UI

WHITE ON DARK · REVERSED

APP & FAVICON

Rounded-square containers scale the corner radius with size (~25% of width). The circular token is reserved for the brand mark; the rounded square is for product surfaces.

How it speaks & shows up

Voice

Confident, exact, never hype. We state what is verifiable and let the data carry weight. Short sentences. Real numbers. No empty superlatives.

DO “Resolved on-chain. Verify the feed.”

DON'T “The most insane prediction market ever!!”

RetroPick

**Predict anything.
Settled by data.**
